

Online Advice Can Help You Stay on Track

Approximately 92% of Dominion employees participate in our Savings Plan. Contributing to the Savings Plan is a big step toward overall financial wellness—reaching your financial goals and preparing for retirement. You're already contributing. What's next? Deciding how to invest the money in your Savings Plan account. In this Guide, we focus on Online Advice through Financial Engines.

Do the following statements reflect your approach to investing?

"I want to manage my own account, but I want some help along the way..."

- You're comfortable making your own investment choices but want help choosing the right funds.
- You like to regularly check on your investments and make your own changes.
- You prefer doing everything online.

If this is you, Financial Engines Online Advice may be the help you need.

What do I get with Financial Engines Online Advice?

With Financial Engines Online Advice, you get online investment advice that can help you stay on track with your financial strategy and improve your retirement outlook.

Online Advice considers:

- Your current Savings Plan assets, projected Savings Plan contributions, Dominion's matching contributions (if applicable) and if you like, other assets you may have such as personal savings, your pension, etc.
- Your current estimated level of investment risk based on your projected retirement date and preferences and the estimated level of risk associated with their recommended asset allocation
- The expected benefits of investing in a diversified group of funds within the Savings Plan
- Projected retirement income—what you want/need in retirement

When you're on the Xerox HR Solutions (<https://www.benefitsweb.com/dominion.html>) site using Online Advice, you'll see recommendations for how much of your account to allocate to each investment option based on your objectives.

You can accept the Savings Plan recommendations and make investment changes with the click of your mouse.

And when your life situation changes, you can input new information and get new recommendations.

How much does it cost?

This service is free—no cost to you.
